

**Application:** Event

## CASE STUDY: Ferrari F1 Hospitality Building

**REQUIREMENT:** Providing ramp and step access to the trackside hospitality building at Fusion Silverstone Circuits Ltd.

The systems were finished in a white powder coating to achieve a perfect colour match with the building, and the rental period was synchronised with the two-week hire duration of the temporary building.

**END RESULT:** Our in-house team oversaw the entire project, handling everything from design and manufacturing to installation. After the event ended, the systems were disassembled and added to our rental inventory.

The ramp featured a connecting platform and a step with white powder-coated handrails. After installation, the client covered the walkway with artificial grass.

A separate step unit, also featuring the same white powder-coated finish was included.

**Location:** Silverstone, UK

**System:** Standard Modular Ramp & Steps

**Service Package:** Ramp Rental

## FEATURES INCLUDED:

- Trombone Ends - These are installed at the ends of a Rapid Ramp to prevent clothes from snagging.
- Telescopic Legs - Adaptable to various threshold heights.
- Standard Handrail - Designed for a secure grip, offering stability and support.
- Mesh Platform - Self-draining mesh allows water to pass through, preventing it from accumulating on the surface.

## EXTRA FEATURE INCLUDED:

- Infill Handrail - Designed to prevent users from climbing or falling through gaps.
- Continuous Handrail - Ensures users always have support to hold onto.
- Solid Hoarding - Purposefully designed mesh to deter unauthorised access to the underside of the ramp, making it a popular choice for schools and other public buildings.
- Custom White Powder Coated Handrails For The Ramp - You can select a custom colour to suit your specific needs. We simply need your RAL colour number, which can be determined using a colour chart.
