

London Metropolitan University, North Campus

REQUIREMENT:

Design and install a fully compliant ramp to the entrance of the Rocket Complex, which functions as both a study space and event venue.

Our system fully complied with parts M and K of the Building Regulations, ensuring the highest safety standards were met.

DESIGN PHASE:

Our in-house design team produced a detailed 3D model and 2D plan, providing the customer with comprehensive visualisations of the project. These were included with the quotation.

END RESULT:

Our fitters went above and beyond, completing the project in just one day during the summer holidays. They finished ahead of the original two-day schedule, which minimised disruption and ensured no impact on the academic timetable when the students returned.

One of the standout benefits of our modular ramp is its incredibly rapid installation time—typically completed within 24 hours, even in light rain or snow! This is a fantastic improvement over a traditional concrete ramp installation, which can take several days to fully cure and can be delayed by cold or wet weather, leading to longer project timelines.

Plus, our modular ramp is incredibly adaptable. If the door layout changes in the future, the ramp can be easily reconfigured to fit. Unlike concrete and timber, which are for single use, hard to modify, and often end up in landfills, our solution is far more eco-friendly and versatile.

FEATURES INCLUDED:

- Looped Trombone Ends – Prevents clothes from snagging at the ends.
- Slip-resistant Mesh Platform - A multi-directional walkway with self-draining steel mesh and a galvanised finish.
- Anti-climbing Infill Handrail - Prevents users from climbing or falling through gaps.
- Continuous Handrail - Provides unbroken support for users to hold onto.
- Standard Colour: Black - Powder-coated black finish for greater durability than traditional paint.
- Adjustable Telescopic Legs - Adaptable to various threshold heights.
- Non-slip Yellow Stair Nosings - Enhances visibility of system edges and level changes for users with impaired vision.

“

From my perspective, I've been impressed from day one and am very pleased with the service, the fitters' efficiency, and the ramp. Everything has been excellent!
