

## London Stadium, Home of West Ham United

### PROJECT BACKGROUND & REQUIREMENT:

Throughout the football season, the stadium needed temporary wheelchair access to its elevated spectator's platform.

### CAD DRAWINGS:

The CAD illustrations were generated with reference to the technical drawings supplied by the client and from our site surveyor's notes.

### APPLICATION

Event

### LOCATION

London

### SYSTEM

Fully Compliant Modular Ramp

### SERVICE PACKAGE

Ramp Rental

PLAN

PERSPECTIVE

## END RESULT:

Two modular ramps featuring a straight configuration and a GRP surface, were promptly installed within a day. Each system boasts a wide platform, accommodating the passage of two wheelchairs simultaneously.

After the conclusion of the football season, we promptly removed the systems, returning the components to our rental inventory for their next use.

### FEATURES INCLUDED:

- Infill Handrail - This component is designed to prevent users from climbing or falling through gaps.
- Yellow Tread - This safety feature aids individuals with impaired vision in identifying the ramp's edge and any changes in level.
- Trombone Ends - These additions are placed at the ends of a Rapid Ramp to prevent clothes from snagging.
- Mesh Platform - The self-draining mesh allows water to pass through, preventing water accumulation on the surface.
- Continuous Handrail - This handrail system ensures that users always have a support to hold onto.
- Standard colour: Black - The ramps come in a powder-coated black finish, ensuring durability that surpasses conventional paint.

### EXTRA FEATURE INCLUDED:

- GRP Surface - A non-corrosive, slip-resistant surface ideal for high-traffic areas like schools and public spaces. The default colour for this product is dark grey.
