

## Lord Derby Academy

### REQUIREMENT:

A modular access ramp and accompanying steps leading to a newly constructed modular classroom.

### DESIGN PHASE:

Our in-house design team produced a detailed 3D model and 2D plan, providing the customer with visualisations of the project.

These were included with their quotation.

### APPLICATION

Education

### LOCATION

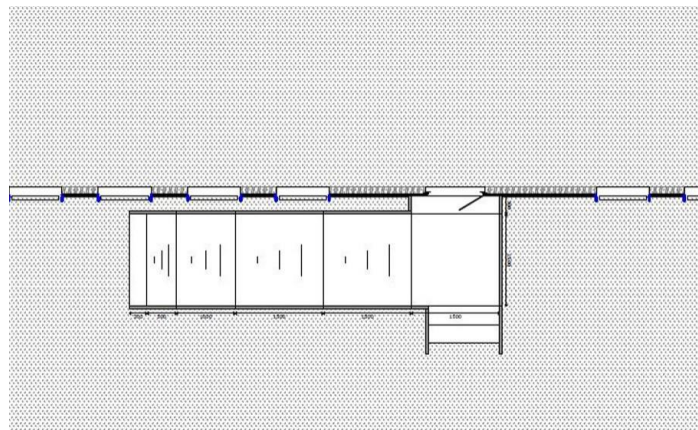

Huyton, Merseyside

### SYSTEM

Modular Ramp & Steps

### SERVICE PACKAGE

Supply & Install

## INSTALLATION:

The installation was completed by our in-house fitting team in just one day during the summer break—well ahead of the new school term—ensuring zero disruption to site operations.

Our steps are built on the same principles as modular classrooms: fully reusable, quick to dismantle, and effortlessly relocatable. This makes them ideal for evolving sites and phased projects.

Unlike traditional concrete or timber alternatives, which are fixed and single use, our solutions are designed to move with your project. It's the kind of flexibility contractors expect—and exactly what we deliver.

## FEATURES INCLUDED:

- Looped Trombone Ends – Prevent clothing from snagging at handrail ends.
- Slip-resistant Mesh Platform - A multi-directional, self-draining walkway made from galvanised steel mesh.
- Anti-climbing Infill Handrail - Prevents climbing and reduces the risk of falls through open sections.
- Continuous Handrail - Offers uninterrupted support along the walkway.
- Standard Colour: Black - A powder-coated finish provides increased durability over conventional paint.
- Adjustable Telescopic Legs - Accommodate varying threshold heights with ease.
- Slip-Resistant Yellow Stair Nosings - Improve visibility of edges and level changes, especially for visually impaired users.

“ I inspected the ramp yesterday afternoon and we are all very happy, so many thanks to Rapid Ramp for your hard work. ”
