

CASE STUDY: **University Graduation Ceremony**

TEMPORARY ACCESS TO THE GRADUATION VENUE

REQUIREMENT: A marquee company needed a temporary wheelchair ramp and step unit for their graduation tent and expressed interest in buying the systems for reuse in future projects.

ADDITIONAL INFORMATION: The company's installation team would assemble the products using our instructional video guide.

We offered a quote and created a 2D and 3D CAD drawings, considering the provided finished floor height measurement.

Application: Modular Building & Education

Location: London

System: Standard Modular Ramp & Steps

Service Package: Supply Only

END RESULT: A temporary disabled ramp and step unit were quickly designed, selected, packaged, and transported to the site, ready for their installation team to assemble.

FEATURES INCLUDED:

- Trombone Ends -These are installed at the ends of a Rapid Ramp to prevent clothes from snagging.
- Telescopic Legs - These legs can be adapted to accommodate various threshold heights.
- Standard Handrail - This handrail is designed for hand gripping, offering stability and support.
- Mesh Platform - The self-draining mesh allows water to pass through instead of pooling on the surface.
- Standard Colour: Black - Our ramps feature a powder-coated black finish, ensuring longevity that exceeds the performance of typical paint.

EXTRA FEATURE INCLUDED:

- Step Unit - An excellent addition to any ramp installation, offering access for able-bodied users. It can also function as a standalone unit, independent of the Rapid Ramp System.

SUPPLY ONLY: Enjoy the convenience of a swift quotation complete with CAD and technical drawings and an installation video. With our role as both manufacturer and stockist, you'll experience notably faster delivery times!

“

The ramp worked well and fitted perfectly!
