

## CASE STUDY: St Malachy's Primary School, Londonderry

### SUPPLY ONLY RAPID RAMPS DELIVERED TO IRELAND NORTHERN

**REQUIREMENT:** Modular Rapid Ramps were required from three different entrances before the start of the new school year.

**END RESULT:** The ramps were purchased under the Supply Only package.

Our in-house drawing service is included. We provided the 3D ramp drawings with the client's quotation.

Ramps were drawn with a 1:15 gradient and a platform width of 1500mm. These are minimum requirements set by [building regulations standards that apply in Ireland](#).

Once the purchase order had been received, a copy of our installation guide was also provided.

The ramps were packaged and delivered and took a week from the point of order to arrive at the delivery location in Northern Ireland.

**Application:** Education

**Location:** Londonderry, Northern Ireland

**System:** Fully Compliant Ramps

**Service Package:** Supply Only

## FEATURES INCLUDED:

- Infill Handrail - this product prevents users from climbing or falling through gaps.
- Yellow Tread - this is a safety feature designed to help those with impaired vision identify the nose of the ramp. Additionally, it helps users distinguish any level changes.
- Trombone Ends - these are added to the ends of a Rapid Ramp to prevent clothes catching.
- Mesh Platform - the self-draining mesh allows water to pass through rather than collect on the surface.
- Rest Platform – a rest platform at 5 metres is required to allow the user to pause.
- 1100mm High Rail – these handrails attach to any level sections.
- Continuous Handrail - this handrail system ensures users always have support to hold onto.
